The Statistical Analysis Center

The Wisconsin Statistical Analysis Center is a program of the Wisconsin Council on Criminal Justice. The Center collects, analyzes, interprets and disseminates criminal justice data in Wisconsin.

In addition to the Uniform Crime Reporting Program, the Center currently operates two ongoing statewide data collection programs. The Jail Information System (JIS) collects and analyzes jail data from participating counties in Wisconsin. The Juvenile Detention Information System (JDIS) collects and analyzes information on secure detention of juveniles in the state.

In addition to operating these programs, the Center also provides technical assistance to local criminal justice agencies. Further, it provides state and local government with access to federal criminal justice statistical information. The Statistical Analysis Center also promotes the coordination and development of criminal justice statistical systems in Wisconsin.

Acknowledgements

Wisconsin Crime and Arrests - 1983 is the product of information provided by a variety of agencies. Without the excellent cooperation of the people in these agencies, this publication would not have been possible. The Wisconsin Council on Criminal Justice gratefully acknowledges the assistance of Mr. William Walluks, Wisconsin Department of Justice, Crime Information Bureau; Mr. Jay Rosenbloom, University of Wisconsin - Madison Academic Computing Center; the Federal Bureau of Investigation, Uniform Crime Reporting Program; and especially the Administrators of local law enforcement agencies and their staff whose efforts made the data available.

Wisconsin Crime and Arrests - 1983 is a publication of the Wisconsin Statistical Analysis Center, a program of the Wisconsin Council on Criminal Justice. The Statistical Analysis Center is funded by a grant from the U. S. Department of Justice, Bureau of Justice Statistics.

Crime and Arrests in Wisconsin - 1983

Introduction

This report, prepared by the Wisconsin Statistical Analysis Center (SAC), presents data on crime and arrests in Wisconsin during 1983. From 1970 to 1980 the state Uniform Crime Reporting (UCR) Program, operated by the Crime Information Bureau of the Wisconsin Department of Justice (DOJ), collected, compiled, and reported crime and arrest data for Wisconsin. Beginning in 1971, DOJ also provided data to the national UCR system, a program of the Federal Bureau of Investigation (FBI). Effective December 31, 1981, the state program operated by DOJ was discontinued due to budget reductions. The 1981 data collected by DOJ were transmitted directly to the FBI, and the 1981 Wisconsin Crime and Arrests report, prepared by SAC, was based for the most part on information provided to SAC by the FBI. In 1982 and again in 1983 Wisconsin law enforcement agencies transmitted their UCR data directly to the FBI, but in addition provided copies of the principal offense and arrest forms to the Statistical Analysis Center. This report is based on the data submitted to the SAC.

The National UCR Program

The national Uniform Crime Reporting Program was initiated in 1930 by the International Association of Chiefs of Police (IACP). After soliciting input from law enforcement agencies throughout the country, an IACP committee developed uniform crime definitions and reporting procedures which could be used by law enforcement agencies in every state. The FBI was designated as the national clearinghouse for UCR data. The Committee on Uniform Crime Records of the IACP continues to serve the national program in an advisory capacity. In 1956, the National Sheriff's Association also established a Committee on Uniform Crime Reports to act as an advisory body to the program. The FBI regularly receives data on reported crime and arrests from law enforcement agencies throughout the country. The data are provided either by individual law enforcement agencies or by state UCR programs which collect and compile data for their states and convey the data to the FBI. From these data the FBI publishes its annual report, Crime in the United States

The Wisconsin UCR Program

The FBI recognized the Wisconsin Council on Criminal Justice (WCCJ) as the administrator of the Wisconsin State Uniform Crime Reporting Program effective January 1, 1984. As indicated above, the original Wisconsin UCR program, operated by DOJ, was discontinued in 1981. The program operated by DOJ from 1970 to 1980 required that all law enforcement agencies submit UCR data either directly or through the county sheriff's office. It also required that DOJ submit the prescribed data to the FBI. DOJ expanded the national UCR program's classifications to collect more detailed and appropriate data on Wisconsin crime and arrests. From the statewide UCR data, DOJ published its annual report Wisconsin Crime and Arrests, as well as quarterly, semi-annual, and other summary reports.

In November 1981, the Wisconsin Council on Criminal Justice (WCCJ) received a grant from the United States Department of Justice, Bureau of Justice Statistics, to develop the Wisconsin Statistical Analysis Center. The SAC was mandated by executive order to collect and analyze criminal justice data, produce statistical reports on crime and the justice system, and promote the development of criminal justice information systems. From 1981 through 1983, SAC assumed a substantial number of the functions of the state UCR program to meet the information needs of state and local criminal justice decision-makers, elected officials and interested citizens. As of January 1984, Wisconsin once again has a state UCR program officially recognized by the FBI and part of the national system of state programs.

The 1983 Wisconsin Crime and Arrests Report

As stated earlier, this report is based on data provided to SAC by local law enforcement agencies. For 1982 and 1983, local agencies provided SAC with copies of four forms also submitted by them to the FBI. These four forms are: the monthly return of offenses known to the police, the arson offense form, and the forms showing age, sex and race of persons arrested, for both adults and juveniles.

Unfortunately, data for all twelve months of 1983 were not available for every reporting agency. In general, the data presented in this report for individual jurisdictions are the reported data, with an indication of the number of months reported. County totals, where appropriate, and statewide totals were estimated when there were missing data. The problem of missing data is discussed in more detail on page 48 of this report.

Issues in Comparison of this Report with Earlier Reports

Care should be exercised in making comparisons of the data in this report with the data contained in previous annual reports. Adjustments may be required for the following reasons:

--Shifting of a law enforcement agency from one population category to another based on annual re-estimation of the jurisdiction's population.

--On occasion, the Federal Government designates an additional Wisconsin county as being included in a Standard Metropolitan Statistical Area. This would shift a Sheriff's Office from the Rural Areas Category to the Suburban Sheriff's group and shift the cities within the county from Non-Suburban Cities to Suburban Cities.

--Populations are estimated for non-census years. Rates for 1983 are calculated using 1980 census data, updated with 1983 estimates.

--County totals shown in Tables 1-8 of this report are estimates which compensate for instances of missing data when appropriate. In the 1981 Wisconsin Crime and Arrests report, these totals were actual totals of data reported, even when data were missing. Thus, caution should be exercised in comparing county totals from 1982 or 1983 with 1981 totals.

--Both adult and juvenile 1981 arrest data for Milwaukee published in the 1981 Wisconsin Crime and Arrests have been revised. Readers interested in comparing 1981 Milwaukee data with other years are urged to contact SAC.

An Overview of 1982 and 1983 Crime and Arrests in Wisconsin

The following three tables present an overview of 1982 and 1983 crime and arrests in Wisconsin. The first table shows that violent offenses are vitually unchanged from 1982, while property offenses have decreased by 4.5 percent. Among the violent offenses, murder is down 8.5 percent and aggravated assault is down by 4.1 percent. Robbery is essentially unchanged while rape is up by 34.3 percent. Comparable 1983 FBI figures for the entire United States show a five percent decrease in violent offenses, and a four percent decrease for the North Central region, of which Wisconsin is a part.

However, it should be noted that violent crimes constituted only 4.5 percent of Index offenses for Wisconsin in 1983. Property crimes make up 94.5 percent of all Index offenses. Among the property crimes, burglary, theft, and arson all declined from 1982 to 1983. The only property crime to show an increased was motor vehicle theft, which increased by 13.3 percent.

The next two tables present a comparison of arrests, both adult and juvenile, in 1982 and 1983. Both adult and juvenile arrests for total Index offenses declined from 1982 to 1983, just as offenses did, and the similarity in this trend is reasonably consistent for total violent and total property offenses as well. Arrests for non-Index offenses, however, have risen, particularly in the case of adult arrests.

While juvenile arrests comprise 32 percent of all arrests for 1983, they comprise 47 percent of arrests for all Index offenses. Among the Index offenses, juveniles comprise 49 percent of all arrests for property offenses and 29 percent of all arrests for violent offenses.

An analysis of total Index offenses, violent offenses, property offenses, and each separate offense appears in the following section of this report. Ten-year trends in offenses, clearances and arrest ratios are then presented.

ESTIMATED INDEX OFFENSES KNOWN TO WISCONSIN LAW ENFORCEMENT AGENCIES,[1] 1982 and 1983

OFFENSE	1982[2]	1983	Percent Change
Murder	141	129	-8.5
Forcible Rape	644	865	34.3
Robbery	3,393	3,425	0.9
Aggravated Assault	4,899	4,700	-4.1
TOTAL VIOLENT OFFENSES	9,077	9,119	0.5
Burglary	46,647	41,976	-10.0
Theft	146,296	140,950	-3.7
Motor Vehicle Theft	8,662	9,814	13.3
Arson	1,251	1,019	-18.5
TOTAL PROPERTY OFFENSES	202,855	193,760	-4.5
TOTAL INDEX OFFENSES	211,932	202,879	-4.3

[1] Data in this table are estimates. Data may not sum to totals due to rounding.

[2] Wisconsin 1982 data in this report may differ from data published in Wisconsin Crime and Arrests 1982 because of revised data submitted by local jurisdictions.

ESTIMATED ADULT ARRESTS FOR INDEX OFFENSES[1]
WISCONSIN LAW ENFORCEMENT AGENCIES, 1982 and 1983

OFFENSE	1982[2]	1983	Percent Change
Murder	172	144	-16.3
Forcible Rape	309	352	13.9
Robbery	1,109	987	-11.0
Aggravated Assault	2,122	2,169	2.2
TOTAL ARRESTS FOR VIOLENT OFFENSES	3,712	3,652	-1.6
Burglary	4,273	3,781	-11.5
Theft	21,516	20,450	-5.0
Motor Vehicle Theft	873	989	13.3
Arson	176	148	-15.9
TOTAL ARRESTS FOR PROPERTY OFFENSES	26,838	25,368	-5.5
TOTAL ARRESTS FOR INDEX OFFENSES	30,550	29,020	-5.0
ARRESTS FOR ALL OTHER OFFENSES	135,881	148,389	9.2
TOTAL ADULT ARRESTS	166,431	177,409	6.6

[1] Data in this table are estimates. Data may not sum to totals due to rounding.

[2] Wisconsin 1982 data in this report may differ from data published in Wisconsin Crime and Arrests 1982 because of revised data submitted by local jurisdictions.

ESTIMATED JUVENILE ARRESTS FOR INDEX OFFENSES KNOWN TO WISCONSIN LAW ENFORCEMENT AGENCIES,[1] 1982 AND 1983

OFFENSE	1982[2]	1983	Percent Change
Murder	12	14	16.7
Forcible Rape	87	62	-28.7
Robbery	712	774	8.7
Aggravated Assault	656	622	-5.2
TOTAL ARRESTS FOR VIOLENT OFFENSES	1,467	1,472	0.3
Burglary	5,004	4,381	-12.5
Theft	17,843	17,949	0.6
Motor Vehicle Theft	1,590	1,455	-8.5
Arson	225	242	7.6
TOTAL ARRESTS FOR PROPERTY OFFENSES	24,662	24,027	-2.6
TOTAL ARRESTS FOR INDEX OFFENSES	26,129	25,499	-2.4
ARRESTS FOR STATUS OFFENSES	25,658	25,319	-1.3
ARRESTS FOR ALL OTHER OFFENSES	31,939	32,586	2.0
TOTAL JUVENILE ARRESTS	83,725	83,404	-0.4

[1] Data in this table are estimates. Data may not sum to totals due to rounding.

[2] Wisconsin 1982 data in this report may differ from data published in Wisconsin Crime and Arrests 1982 because of revised data submitted by local jurisdictions.

WISCONSIN
CRIME CLOCK[1]
1983

- One CRIME INDEX OFFENSE every 2 1/2 minutes
  - One VIOLENT CRIME every 1 hour
    - One MURDER every 3 days
    - One FORCIBLE RAPE every 10 hours
    - One ROBBERY every 2 1/2 hours
    - One AGGRAVATED ASSAULT every 2 hours
  - One PROPERTY CRIME every 2 1/2 minutes
    - One BURGLARY every 12 1/2 minutes
    - One THEFT every 3 1/2 minutes
    - One MOTOR VEHICLE THEFT every 53 minutes
    - One ARSON every 8 1/2 hours

---

[1] The crime clock should be viewed with caution. Since it is the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of Index offense occurrence. This method of display does not imply a regularity in the commission of Index offenses; rather it shows the ratios of crimes to fixed periods of time.

CRIME INDEX OFFENSES

Definition:[1] Crime Index offenses are murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft, and arson. Attempts are included (an attempted murder is classified as an aggravated assault).

1983 Summary Analysis

- There were an estimated 202,879 Crime Index offenses reported during 1983, a 4.3 percent decrease from 1982.
- The rate of occurrence for total Index offenses in 1983 was 4,246.1 per 100,000 persons in Wisconsin. This is approximately twenty-four percent lower than the 1982 rate of 5,610.4 for the entire United States. Wisconsin ranked in the lower half of all states in rate of Index offenses for 1982.
- One Index offense was reported approximately every 2 1/2 minutes during 1983.
- In the population grouping of Wisconsin cities, the larger the population category, the higher the rate of Index offenses.
- Total Index offenses have increased by 39.8 percent between 1973 and 1983.
- An estimated total of 54,519 persons were arrested for Index offenses in 1983. Of these, 53.2 percent were adults.
- Overall, 22 percent of Index offenses were cleared in 1983. This rate varied widely, however, from 90.6 percent for murder to 16.7 percent for burglary. Clearances solely involving juveniles comprised 36.6 percent of all clearances for Index offenses in 1983.

Total Index Offense Summary: 1982 and 1983[2]

Year	Number of Estimated Offenses	Rate per 100,000 Population
1982	211,932	4,455.8
1983	202,879	4,246.1
Percent Change	-4.3	-4.7

---

[1] Footnotes for this section may be found at the end of the section, page 43.

1982	211,932	21.3%	37.3
1983	202,879	22.0%	36.3

VIOLENT OFFENSES

Definition:[1] Four Crime Index Offenses involve face-to-face confrontation between victim and perpetrator, and are referred to as violent offenses. These are murder and nonnegligent manslaughter, forcible rape, robbery, and aggravated assault.

1983 Summary Analysis

- There were an estimated 9,119 violent offenses reported during 1983, a 0.5 percent increase from 1982.

- The rate of occurrence for violent offenses in 1983 was 190.8 per 100,000 Wisconsin residents. This is about one-third the 1982 rate of 555.3 per 100,000 for the entire United States. Wisconsin ranked in the lowest fourth of all states in rate of violent offenses for 1982.

- Approximately one violent offense per hour was reported during 1983.

- In the population grouping of Wisconsin cities, the rate of violent offenses decreased for cities between 10,000 and 49,999. The rate increased for those cities over 50,000 and those under 10,000. In addition, the 1983 violent offense rate was positively related to the size of the population group.

- Violent offenses have increased by 72.8 percent between 1973 and 1983. However, the 0.5 percent increase from 1982 to 1983 is the smallest such increase since 1977.

- An estimated total of 5,124 persons were arrested for violent offenses in 1983. Approximately 71 percent of these were adults.

- Overall, 55.0 percent of violent offenses were cleared in 1983. The clearance rate for violent offenses ranged from 90.6 percent for murder to 42.9 percent for robbery. Clearances involving solely juveniles comprised 20.4 percent of all clearances for violent offenses in 1983.

Violent Offense Summary: 1982 and 1983[2]

Year	Number of Estimated Offenses	Rate per 100,000 Population
1982	9,077	190.8
1983	9,119	190.8
Percent Change	+0.5	---

1983	9,119	55.0	20.4

PROPERTY OFFENSES

Definition:[1] Four Crime Index offenses do not involve face-to-face confrontation between victim and perpetrator, and are referred to as property offenses. These offenses are burglary, theft, motor vehicle theft, and arson.

1983 Summary Analysis

- There were an estimated 193,760 property offenses reported during 1983, a 4.5 percent decrease from 1982.
- The rate of occurrence for property offenses in 1983 was 4,055.3 per 100,000 residents. This figure is nearly twenty percent less than the 1982 rate of 5,055.1 for the entire United States. Wisconsin ranked in the lower half of all states in rate of property offenses for 1982.
- Approximately one property offense was reported every 2 1/2 minutes.
- Property offense rates decreased from 1982 to 1983 for every Wisconsin population group, except for jurisdictions over 250,000, where the property offense rate increased.
- Property offenses have increased by 38.5 percent between 1973 and 1983. However, the change from 1982 to 1983 is the second consecutive decrease in property offenses.
- An estimated total of 49,395 arrests were made for property offenses in 1983. Approximately 51 percent of these were adults.
- Overall, 20.5 percent of property offenses were cleared in 1983. The clearance rate varied from 16.7 percent for burglary to 29.3 percent for arson. Clearances solely involving juveniles comprised 39.6 percent of all clearances for property offenses in 1983.

Property Offense Summary: 1982 and 1983[2]

Year	Number of Estimated Offenses	Rate per 100,000 Population

MURDER

Definition:[1] Murder and nonnegligent manslaughter are the willful (nonnegligent) killing of one human being by another. The classification of this offense, as for all other Crime Index offenses, is based on police investigation as opposed to the determination of a court, medical examiner, coroner, jury, or other judicial body. Not included in the count for this offense classification are deaths caused by negligence, suicide, or accident; justifiable homicides, which are the killings of felons by law enforcement officers in the line of duty or by private citizens during commission of the felony; and attempts to murder or assaults to murder, which are classified as aggravated assaults.

1983 Summary Analysis

- There were an estimated 129 murders reported during 1983, an 8.5 percent decrease from 1982.
- Murder accounted for 0.06 percent of the total Crime Index and 1.4 percent of all violent index offenses.
- Approximately one murder was reported every 3 days.
- The 1983 murder rate was 2.7 victims per 100,000 population compared to 3.0 per 100,000 in 1982.
- The 1983 rate of 2.7 per 100,000 Wisconsin residents is approximately seventy percent less than the rate of 9.1 per 100,000 for the entire United States.
- Murder rates by population groups revealed no consistent trends from 1982 to 1983.
- Reported murders have declined 19.4 percent since a peak at 160 in 1979.
- An estimated 158 persons were arrested for murder in 1983; 91.2 percent of these were adults.
- The murder clearance rate increased from 74.4 percent in 1982 to 90.6 percent in 1983. Murder clearances solely involving juveniles increased from 5.6 percent in 1982 to 14.6 percent in 1983.

FORCIBLE RAPE

Definition:[1] Forcible rape is the carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force are also included; however, statutory rape (without force) and other sex offenses are not included in this category. Further, it should be noted that forcible rape is not the same as sexual assault as defined in Wisconsin Statutes.

1983 Summary Analysis

- There were an estimated 865 rapes reported during 1983, an increase of 34.3 percent from the 1982 figure.
- Rapes constituted 0.4 percent of the total Crime Index and 9.5 of violent index offenses.
- Approximately one rape was reported every 10 hours during 1983.
- The rate of rape per 100,000 population was 18.1 in 1983. This figure represents a 34.1 percent increase from the 1982 rate.
- The 1983 rate of 18.1 per 100,000 Wisconsin residents is approximately forty-six percent less than the 1982 rate of 33.6 per 100,000 residents for the entire United States.
- Rape rates in 1983 by Wisconsin population groups were highest in cities over 50,000. Rates increased for all population groups in 1983.
- Actual rape by force constituted 79.1 percent of all estimated rapes in 1983 while attempted rape by force made up the remaining 20.9 percent. These proportions are nearly identical to those in 1982.
- The number of estimated rapes has increased by 75.8 per cent from 1973 to 1983. The increase of 34.3 per cent from 1982 to 1983 was the largest annual increase during the past decade.
- There were an estimated 414 persons arrested for rape in 1983. Approximately 85 percent of these were adults.
- The 1983 total clearance rate for rape was 53.7 percent, a decrease from the 1982 clearance rate of 58.0 percent.

ROBBERY

Definition:[1] Robbery is the taking or attempting to take anything of value from the care, custody or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

1983 Summary Analysis

- There were an estimated 3,425 robberies reported in 1983, a 0.9 percent increase from 1982.
- Robbery accounted for 1.7 of the total Crime Index and 37.6 percent of all violent index offenses.
- Approximately one robbery was reported every 2 1/2 hours during 1983.
- The robbery rate was 71.7 per 100,000 population in 1983, compared to 71.3 per 100,000 in 1982.
- This 1983 rate of 71.7 per 100,000 Wisconsin residents is approximately thirty percent of the 1982 rate of 231.9 per 100,000 residents for the entire United States.
- The 1983 robbery rate per 100,000 was highest in jurisdictions over 250,000.
- The proportion of robberies involving firearms was 31.2 percent in 1983, considerably less than the 38.7 percent figure in 1982.
- The number of estimated robberies has increased approximately 47 percent from the 1978 figure of 2,336.
- An estimated total of 1,761 persons were arrested for robbery in 1983. Approximately 56 percent of these were juveniles.
- The 1983 total clearance rate for robbery was 42.9 percent, a slight decrease from the 1982 figure of 44.4 percent.

AGGRAVATED ASSAULT

Definition:[1] Aggravated assault is an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault is usually accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Attempts are included, since it is not necessary that an injury results when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed.

1983 Summary Analysis

- There were an estimated 4,700 aggravated assaults reported in 1983, a 4.1 percent decrease from 1982.
- Aggravated assaults accounted for 2.3 percent of the total Crime Index and 51.5 percent of all violent index offenses.
- One aggravated assault was reported approximately every 2 hours.
- The aggravated assault rate per 100,000 Wisconsin residents was 98.4 in 1983, a slight decrease from the 103.0 per 100,000 in 1982.
- This 1983 rate of 98.4 per 100,000 Wisconsin residents is approximately one-third of the 1982 rate of 280.8 per 100,000 for the United States as a whole.
- The 1983 aggravated assault rate per 100,000 increased in cities under 5,000 and cities over 250,000. In all other population groups, the 1983 rate declined relative to the 1982 rate.
- Patterns in the type of weapon used in aggravated assaults were very similar in 1982 and 1983.
- While the number of estimated aggravated assaults has increased 60.6 percent from the 1976 figure of 2,927, the 1983 figure represents the first decline in reported aggravated assaults during these seven years.
- An estimated total of 2,791 persons were arrested for aggravated assault in 1983. Approximately 78 percent of those arrested were adults.
- The 1983 total clearance rate for aggravated assault was 63.0 percent, a slight increase over the 1982 figure of 59.6 percent. Clearances solely involving juveniles comprised 16.3 percent of all clerances for aggravated assault in 1983.

BURGLARY

Definition:[1] Burglary is defined as the unlawful entry of a structure to commit a felony or a theft. The use of force to gain entry is not required to classify an offense as burglary. Burglary in this program is categorized into three subclassifications: forcible entry, unlawful entry where no force is used, and attempted forcible entry.

1983 Summary Analysis

- There were an estimated 41,976 burglaries reported in 1983, a 10.0 percent decrease from 1982.
- Burglaries accounted for 20.7 percent of the total Crime Index and 21.7 percent of all property index offenses.
- One burglary was reported approximately every 12 1/2 minutes during 1983.
- The burglary rate was 878.6 per 100,000 population in 1983, over 10 percent lower than the 1982 rate of 980.7 per 100,000.
- This 1983 rate of 878.6 per 100,000 Wisconsin residents is slightly over half of the 1982 nationwide rate of 1,475.2 for the entire United States.
- While the burglary rate was highest in cities over 25,000, rates for all population groups declined from 1982 to 1983.
- Patterns in the type of entry of burglaries were quite similar in 1982 and 1983.
- The number of estimated burglaries has declined nearly seventeen percent from a peak of 50,851 in 1981.
- An estimated total of 8,162 persons were arrested for burglary in 1983. Approximately 54 percent of those arrested in 1983 were juveniles.
- The 1983 total clearance rate for burglary was 16.7 percent, a slight decline from the 1982 figure of 17.0 percent. Clearances solely involving juveniles made up 36.7 percent of all clearances for burglary.

THEFT

Definition;[1] Theft is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. It includes crimes such as shoplifting, pocket-picking, purse-snatching, thefts from motor vehicles, thefts of motor vehicle parts and accessories, bicycle thefts, etc., in which no use of force, violence or fraud occurs. In the Uniform Crime Reporting program, this crime category does not include embezzlement, "con" games, forgery and worthless checks. Motor vehicle theft is also excluded from this category for crime reporting purposes inasmuch as it is a separate Crime Index offense.

1983 Summary Analysis

- An estimated total of 140,950 thefts were reported in 1983. This figure is 3.7 percent less than in 1982.
- Thefts accounted for 69.5 percent of the total Crime Index and 72.7 percent of all property index offenses.
- One theft was reported approximately every 3 1/2 minutes.
- The theft rate was 2,950.0 per 100,000 in 1983, a decline of 4.1 percent from the rate of 3,075.8 per 100,000 in 1982.
- This 1983 rate of 2,950.0 per 100,000 Wisconsin residents is slightly less than the 1982 rate of 3,069.8 per 100,000 for the entire United States.
- The 1983 theft rate was highest in cities over 25,000 and lowest in the sheriffs' department categories. Also, the 1983 rate declined in all population groups except cities over 250,000.
- The number of estimated thefts has declined 9.7 percent from the 1981 peak of 156,060 offenses.
- An estimated total of 38,399 persons were arrested for theft in 1983. Approximately 53 percent of those arrested were adults.
- The 1983 total clearance rate of 21.4 percent was somewhat higher than the 1982 rate of 20.4 percent. Clearances solely involving juveniles comprised 40.4 percent of all clearances for theft.

MOTOR VEHICLE THEFT

Definition:[1] Motor vehicle theft is defined as the theft or attempted theft of a motor vehicle. This definition excludes the taking of a motor vehicle for temporary use by those persons having lawful access.

1983 Summary Analysis

- There were an estimated 9,814 motor vehicle thefts reported in 1983, a 13.3 percent increase over 1982.
- Motor vehicle theft accounted for 4.8 percent of the total Crime Index and 5.1 percent of all property index offenses.
- One motor vehicle theft was reported approximately every hour.
- The motor vehicle theft rate was 205.4 per 100,000 population in 1983, an increase of 12.8 percent over the 1982 rate per 100,000.
- This 1983 rate of 205.4 per 100,000 Wisconsin residents is less than half of the 1982 rate of 452.8 per 100,000 for the entire United States.
- The motor vehicle theft rate per 100,000 population increased dramatically in cities over 250,000.
- In terms of type of vehicle stolen, the proportion of stolen autos increased from 1982 to 1983.
- The increase of 13.3 percent in estimated 1983 motor vehicle thefts represents the first annual increase since 1979.
- An estimated total of 2,444 persons were arrested for motor vehicle theft in 1983. Approximately 59.5 percent of those arrested were juveniles.
- The 1983 total clearance rate of 22.6 percent was slightly lower than the 1982 clearance rate of 23.5 percent. Clearances solely involving juveniles made up 36.4 percent of all clearances for motor vehicle theft in 1983.

Motor Vehicle Theft Summary: 1982 and 1983[2]

ARSON

Definition:[1] Arson is defined as any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Only fires determined through investigation to have been willfully or maliciously set are classified as arsons. Fires of suspicious or unknown origins are excluded.

1983 Summary Analysis

- There were an estimated 1,019 arsons reported in 1983, an 18.5 percent decrease from 1982.
- Arson constituted 0.5 percent of the total Crime Index and 0.5 percent of all property index offenses.
- Approximately one arson was reported every 8 1/2 hours in 1983.
- The arson rate per 100,000 was 21.3 in 1983, a decline of nineteen percent from the rate of 26.3 per 100,000 in 1982.
- This 1983 rate of 21.3 per 100,000 Wisconsin residents was about one-third of the 1982 rate of 57.3 per 100,00 for the entire United States.
- The arson rate per 100,000 was highest in cities over 10,000. The 1983 rate declined for all population groups except cities between 5,000 and 50,000.
- The annual number of reported arsons has declined 46.6 percent from 1980 to 1983.
- An estimated total of 390 persons were arrested for arson in 1983. Approximately 62 percent of those arrested were juveniles.
- The 1983 total clearance rate of 29.3 percent for arson was slightly higher than the 1982 clearance rate of 28.9 percent. Clearances solely involving juveniles comprised 49.4 percent of all clearances for arson in 1983.

FOOTNOTES

[1] All Index offense definitions are those used by the National Uniform Crime Reporting Program.

[2] Figures in this and subsequent tables are estimated. Figures may not add exactly due to rounding.

[3] Data from two jurisdictions (i.e., Wisconsin State Patrol and the Department of Natural Resources) are excluded from this table.

[4] Reported offenses from the various campuses of the University of Wisconsin are included in the population group of the city where the campus is located. Figures for 1982 reported in these tables have been revised as appropriate for purposes of comparison with 1983.

[5] "Suburban Sheriffs' Departments" include the following counties: Brown, Calumet, Chippewa, Dane, Douglas, Eau Claire, Kenosha, LaCrosse, Marathon, Milwaukee, Outagamie, Ozaukee, Racine, Rock, St. Croix, Sheboygan, Washington, Waukesha and Winnebago.

[6] The numbers of the population groups in this graph correspond to the numbers of the population groups in the preceding table.

Summary of Offense and Arrest Trends: 1973 - 1983

The following four tables present statewide data on 1) the number of Index offenses, 2) offense rates for Index offenses, 3) clearance rates for Index offenses, and 4) the ratio of arrests to offenses for Index offenses for each year from 1973 through 1983. Each table shows percent change from 1973 to 1983. Certain adjustments, noted in footnotes to each table, were made in the total Crime Index and property offense categories to make the data comparable from year to year.

The total number of known Index offenses in Wisconsin increased sporadically from 1973 through 1981, but has now decreased for two years in a row for the first time since 1977. The number of Index offenses increased by 39.1 percent for the decade, from 145,154 in 1973 to 202,879 in 1983.[1] The increase in offense rates for the decade is slightly less than the increase in number of offenses, because the population of the state increased approximately 4.6 percent during this period.

The number of violent offenses increased by 72.8 percent for the decade, from 5,276 in 1973 to 9,119 in 1983. The number of property offenses increased by 37.8 percent for the decade, from 139,878 to 193,760. Thus, violent offenses increased nearly twice as fast as property offenses during the past decade. Robbery and aggravated assault, the most numerous violent offenses, showed the greatest absolute increase for the decade. The greatest percent increases were shown by aggravated assault and rape.

Clearance rates for all of the violent offenses except robbery have increased during the decade. That law enforcement agencies have been able to increase these rates, despite much higher levels of offenses, should be noted. Clearance rates for robbery and the property offenses have dropped.

Arrest ratios have generally declined over the past decade, indicating that during this time arrests have increased less rapidly than offenses. The two exceptions to this are aggravated assault and theft. The ratio for aggravated assault is unchanged in comparison with the 1973 ratio and although the ratio for theft is 3.8 percent higher, the absolute difference in this latter case is so small as to be negligible.

Comparing with 1982, we find that most arrest ratios are down. The two exceptions are aggravated assault and theft. For aggravated assault, the rise in the arrest ratio reflects the decline in number of offenses coupled with a virtually unchanged number of arrests. For theft, both offenses and arrests declined, but the decline in number of offenses was greater proportionally than the decline in number of arrests.

---

[1] The numbers used in this section are taken from the four tables that follow. As noted in the footnotes to the tables, the 1983 Total Index and property offense figures include arson data but, since the 1973 data do not include arson, the 1973 to 1983 percent change figures do not reflect 1983 arson offenses.

Arson[2]	--	--	--	--	--	--	30.2%	24.1%	29.8%	32.1%	38.3%	--

[1] 1981, 1982 and 1983 figures are estimates; see text for further details.

[2] Arson was not reported as an Index offense until 1980. In this table arson offense rates are included in the total Index and Property offense rates for 1980 through 1983 but they are not reflected in the percent change from 1973 to 1983.

Index Offenses by County and Municipality - 1983

Table 1 shows Index offenses for 1982 and 1983 and percent changes from 1982 to 1983 for each jurisdiction. The four violent index offenses are totaled to equal violent crimes, and the four property index offenses are totaled to equal property crimes. The Crime Index is the sum of all eight offenses.

In Table 1 the number of months of data reported for each jurisdiction is listed. This information is vital to the interpretation of the table, since the data presented are the reported data at the jurisdiction level, even when fewer than twelve months of data were available. Twelve months of data were reported for 82% of the jurisdictions, while eleven months or more were reported for 88% of the jurisdictions. Data for jurisdictions reporting less than four months are not printed. However, estimates for these jurisdictions are included in county and state totals (see below).

Data for a jurisdiction which reported for fewer than twelve months in 1983 cannot be directly compared with that jurisdiction's 1982 data or with data for other jurisdictions. Thus, no percent changes are shown for these jurisdictions. However, an approximate comparison can be made using an estimate of the twelve months total. This estimate can be calculated by multiplying the available data by a correction factor which is obtained by dividing twelve by the number of months reported. (For example, if nine months of data are available for an agency, the data can be estimated for twelve months by multiplying the data by 12/9 or 1.33.) However, the accuracy of this approximation diminishes when only a few months of data are available. It should be applied with great caution when less than six months of data are available. This method should also be applied with caution when the number of offenses involved is small. For example, if jurisdiction A had 72 thefts in nine months and prorated them to 96 (12/9 x 72 = 96) thefts for the year, while jurisdiction B had three thefts in nine months and prorated them to four thefts for the year, the estimate for jurisdiction A would be more reliable because it had a higher number of offenses.

The percent change in the number of index offenses reported from 1982 to 1983 is shown in Table 1 for each jurisdiction for which it was possible to calculate the change. The percent change is calculated using the formula:

$$\frac{(\text{Offenses in 1983}) - (\text{Offenses in 1982})}{\text{Offenses in 1982}} \text{ X } 100 = \text{percent change}$$

If the number of offenses for 1982 was zero, no percent change was calculated since percent change cannot be calculated from a zero base. In addition, as stated above, no percent change was calculated for a jurisdiction unless twelve months of data were available for both 1982 and 1983.

Table 1 shows county totals for each offense and percent change from 1982 to 1983. For those counties in which not every jurisdiction reported twelve months of data for 1982 or 1983, the county totals shown are estimates. The estimated county totals were obtained by summing the estimated annual totals for each jurisdiction within the county. These estimated annual totals were obtained as described above, by multiplying the available data by a correction factor for jurisdictions with 4 months or more of 1983 data. When less than 4 months of data were present, a different method of estimation was used. For these jurisdictions, the estimate was based on the latest year of complete data, updated based on average changes experienced by agencies of similar size. When estimates are used for county totals, the totals are so labelled in Table 1 (e.g., the notation "(EST)" follows the total for Ashland County.)

At the end of Table 1, statewide totals of reported offenses in each category and estimates of the actual statewide totals are shown. The statewide estimates were obtained by summing the estimated offenses for each jurisdiction.

Table 2 presents offense rates per 100,000 population for index offenses for each jurisdiction. The populations shown in this table are from Official Population Estimates for 1983, published by the Demographic Services Center of the Wisconsin Department of Administration. The population shown for each county sheriff's office is the total population of the county minus the populations of any municipalities in the county for which UCR data were reported separately. The rates shown in Table 2 are derived by taking the number of reported offenses, shown in Table 1, dividing by the population of the jurisdiction, shown in Table 2, and multiplying by 100,000. These rates permit comparisons among jurisdictions of different sizes.

As discussed in connection with Table 1, twelve months of data were available for 82% of jurisdictions. Since offense rates based on less than twelve months of data would be misleading, Table 2 presents rates only for those jurisdictions which reported twelve months of data. The county-wide and statewide rates shown in Table 2 are based on estimated numbers of offenses when necessary, as described in connection with Table 1.

Table 3 presents total clearance rates by offense and jurisdiction. Note that the 1981 edition of Wisconsin Crime and Arrests showed both total and juvenile-only clearance rates in Table 3. This year and in 1982, however, Table 3 presents only total clearance rates, while clearance rates for juveniles are shown separately in Table 4.

In Table 3, the total clearance rate is the number of clearances, divided by the number of offenses and multiplied by 100. That is, clearances are represented as a percentage of reported offenses. Note that no clearance rate can be calculated for an offense category if there are no 1983 offenses reported, even though clearances may be reported from prior years. When no offenses have been reported, a blank space appears in Table 3. When a clearance rate of zero is shown it means that at least one offense occurred, but that there were no clearances.

Since the clearance rate is the ratio of clearances to reported offenses, it is not particularly sensitive to the problems of missing data described above for Tables 1 and 2. It is reasonable to assume that this ratio would be fairly constant as long as the number of months of data available was reasonably large. Thus, clearance rates have been presented in Table 3 for all jurisdictions for which six months or more of clearance data were present. There were 24 jurisdictions (9% of the total) reporting fewer than six months of data and which were excluded from the table. An asterisk (*) is printed next to the name of each of these jurisdictions.

County-wide and statewide rates shown in Table 3 are based on estimated clearances and offenses, calculated as described above in connection with Table 1. Since county estimates could be misleading if a large proportion of data were missing, they are not printed for those counties in which jurisdictions with less than six months of data make up more than a third of the county population. A number sign (#) is printed when county estimates are omitted for this reason.

Table 4 presents information on those clearances in which only juveniles were involved. In Table 4, juvenile-only clearances are presented as a percentage of all clearances for each offense. Note that this is different from the definition used in the 1981 Wisconsin Crime and Arrests report, when juvenile-only clearances were presented as a percent of offenses. In the present report and in the 1982 report, the practice used in Wisconsin Crime and Arrests reports through 1980 is resumed and juvenile-only clearances are presented as a percent of total clearances. In Table 4, when a clearance rate of 0 is shown, it means that there was at least one clearance, but there were no juvenile clearances. When no clearances at all have been reported, a blank space appears in the table. In all other respects, Table 4 is constructed in the same way as Table 3, and all comments regarding Table 3 are relevant to Table 4.

'*' INDICATES THAT LESS THAN 6 MONTHS OF CLEARANCE DATA ARE PRESENT FOR JURISDICTIONS THAT REPRESENT MORE THAN 33.3% OF THE TOTAL COUNTY POPULATION

Arrests by County and Municipality - 1983

Tables 5 and 6 present data on adults and juveniles arrested by Wisconsin law enforcement agencies during 1983. The tables present the total number of arrests, the total number of Part I arrests, the total number of Part II arrests and the number of arrests for each Part I offense for each reporting agency for adults and juveniles respectively. Table 6 also presents the total number of juvenile arrests for status offenses. Status offenses are those which are only offenses because the offender is a juvenile. The UCR offenses considered to be status offenses are liquor law, curfew, and runaway violations. Since status offenses are Part II offenses, they are also included in the total number of Part II arrests. The number of Part II arrests for offenses other than status offenses can be found by subtracting the number of status offense arrests from the number of Part II arrests.

As indicated in the introduction to this report, data are not available for all twelve months of 1983 for every reporting agency. In Tables 5 and 6 the number of months of arrest data available for each reporting agency is listed. Although only the known data are presented for each jurisdiction, an estimated yearly total can be calculated for any jurisdiction with less than twelve months of data reported. The estimated totals can be calculated by multiplying the number in the table by a correction factor which can be obtained by dividing twelve by the number of months of data reported. (Thus, if eleven months of data are presented for an agency, for example, the agency's figures should be multiplied by 12/11, or 1.09.) Naturally, the more months of data reported, the more accurate will be the yearly estimates. Estimates based on a small number of months of reported data should be interpreted cautiously.

Tables 5 and 6 show, for each county, county total arrests for each offense. For those counties in which not every jurisdiction reported twelve months of data for 1983, the county totals shown are estimates. These estimates were obtained as in Table 1, by calculating and summing the estimated annual totals for each jurisdiction within the county. As in previous tables, when estimates are used for county totals, the notation "(EST)" follows the "County Total" label.

At the end of each table there are statewide totals of the reported arrests in each category and estimates of the actual statewide totals. The estimated totals were obtained by calculating estimated yearly totals, as described above, for each reporting agency with less than twelve months of data and summing the estimates for these agencies and the reported figures for the other agencies.

These tables also contain population figures for each jurisdiction. Table 5 contains adult population figures. Table 6 contains juvenile population figures. The juvenile population figures were derived from 1983 population estimates using adult and juvenile population proportions provided in the 1980 census. The population figures presented for county sheriffs' offices are the county populations minus the populations of any municipalities in the county for which UCR data are reported separately. These figures, based on the Official Population Estimates for 1983, Wisconsin Department of Administration, Demographic Services Center, can be used to calculate arrest rates for any of the jurisdictions or the State. Arrest rates are calculated by dividing the number of arrests by the relevant population and multiplying the quotient by 100,000. This rate per 100,000 is comparable across jurisdictions of varying size.

Tables 7 and 8 present additional data on adult and juvenile Part II arrests, respectively. These tables repeat the information on total Part II offenses, population, number of months data present, and, in the case of juveniles, total status offenses from Tables 5 and 6.

In addition, Tables 7 and 8 present data on selected Part II arrests. These arrests were selected because they are among the Part II arrests which are most often the subject of inquiries, or because they are among the most numerous Part II arrests.

The construction of Tables 7 and 8 is identical to Tables 5 and 6, and all of the comments above relevant to Tables 5 and 6 also apply to Tables 7 and 8.

Statewide Arrests, by Offense

The following two tables present statewide data on adult and juvenile arrests in Wisconsin during 1983. The tables are listings of the UCR adult and juvenile arrest forms that are submitted by law enforcement agencies each month. As such, they show the total number of adult and juvenile arrests for each offense by sex, age, and race. Like other state and county level data presented in this report, these tables present estimated totals. Note that the statewide arrests in the 1981 Wisconsin Crime and Arrests report showed actual reported data, rather than estimates. In order to make comparisons between these tables and the analogous tables from the 1981 report, the 1981 data must first be adjusted, as described in the 1981 report.

Note that the state total in these listings differs slightly from the corresponding totals shown in Tables 5 and 6. This is because of small differences in the procedure to make estimates of missing data in the two types of tables.

GLOSSARY

ADULT: A person 18 years of age or older.

ARREST: Taking into physical or other legal custody for committing an offense in the local reporting jurisdiction. Arrests for all criminal offenses are scored. Arrests for ordinance violations are included. Arrests for traffic offenses, with the exception of driving under the influence of intoxicants, are not scored. Included are those persons released without having been formally charged (See Juvenile Arrest).

ARREST RATE: The number of arrests for a particular offense, or group of offenses, per 100,000 population. The formula is:

$$\frac{\text{Number of Arrests}}{\text{Population}} \text{ X } 100{,}000$$

Arrest rates per population unit are employed to remove the effects of differing sizes of law enforcement service areas, permitting the examination of arrest on an equalized population basis. "Per 100,000 population" is generally utilized to preclude rates for infrequently occurring arrests from being unmeaningfully low.

CLEARANCE: An offense is cleared, or solved for crime reporting purposes, when at least one person is arrested, charged with commission of the offense and turned over to the court for prosecution. Provision is also made for clearance in certain "exceptional" situations.

CLEARANCE RATE (TOTAL): The number of clearances divided by the total number of offenses, expressed as a percent. The formula is:

$$\frac{\text{Number of Clearances}}{\text{Number of Offenses}} \text{ X } 100\%$$

Offenses are reported as they become known to law enforcement agencies. Clearances are scored as they are made. Therefore, it is possible for the clearance rate to exceed 100 percent for a time period. Both clearances by arrest and exceptional clearances are included.

CRIME FACTORS: Historically, the causes and origins of crime have been the subjects of investigation by many disciplines. No definitive conclusions have yet been reached; many factors affect the volume and type of crime that occurs from place to place. Caution should therefore be exercised in comparing statistical data of individual communities or counties solely on the basis of their population.

More appropriate use can be made of the statistics by relating the experience of a particular area to group averages, or by employing a ranking procedure, and encompassing both crime and other socio-economic information.

CRIME INDEX: The total of eight serious offenses used as an indicator of crime. Crime Index offenses are murder and nonnegligent manslaughter, forcible rape, robbery, aggravated assault, burglary, theft, motor vehicle theft and arson. Definitions of each of these offenses are given in the section "Statewide Index Offenses and Arrests."

JUVENILE: A person under 18 years of age.

JUVENILE ARREST: Juveniles are scored as having been "arrested" for purposes of Uniform Crime Reporting procedures, although under Wisconsin Statutes law enforcement custody of a child is not legally considered an arrest. Arrests, in the case of juveniles, include those who have committed a crime and are taken into custody under circumstances such that were the juvenile an adult, an arrest would be scored. All violations by juveniles where some police or other official action is taken beyond a mere admonishment, including status offenses, are included. Law enforcement contacts with juveniles where no offense has been committed are not scored as arrests. Juveniles taken into custody for their own protection, such as in neglect cases, are not scored as being arrested if they have not committed an offense. (See *Arrest*.)

JUVENILE CRIME: Two different measures are available through Uniform Crime Reporting. They are juvenile arrests (number, rate, and percentage of total arrests), and juvenile involvement in clearances (juvenile clearance rate).

JUVENILE INVOLVEMENT IN CLEARANCES: The percent of clearances for a given offense involving only juveniles.

$$\frac{\text{Number of Clearances Involving Only Juveniles}}{\text{Total Number of Clearances}} \text{ X } 100{,}000$$

OFFENSE RATE: The number of known offenses per 100,000 population. The formula is:

$$\frac{\text{Number of Offenses}}{\text{Population}} \quad \text{X } 100{,}000$$

Offense rates per population unit are employed to remove the effect of differing sizes of law enforcement service areas, permitting the examination of reported crime on an equalized population basis. "Per 100,000 population" is generally utilized to preclude rates for infrequently occurring offenses from being unmeaningfully low.

More sophisticated crime or victimization rate measures may also be utilized, such as residential burglaries per 100,000 residences, motor vehicle thefts per 100,000 registered vehicles, or forcible rapes per 100,000 females in typically victimized age groups.

PERCENT CHANGE: The formula is:

$$\frac{\text{Value in Current Period - Value in Base Period}}{\text{Value in Base Period}} \text{ X } 100\%$$

POPULATION: Totals as well as juvenile and adult sub-totals are based on *Official Population Estimates for 1983*, Wisconsin Department of Administration, Demographic Services Center.
